Pharma-Care, Inc.
Health Care Consultation Specialists
WWW.PHARMACAREINC.COM

Printed: MM/DD/YYYY

To: Example Facility Name
Attn: Usually sent to the Director of Nursing
From: Consultant Pharmacist
Subject: **Electronic Pharmacist Information Consultation**
Date: Date of Review

Patient: Example Last Name, First Name
Room: 2nd Floor – Room 2012
Physician: Dr. John Doe

Nursing Recommendations:

1. Monitor for central nervous system depression while administering clonazepam. Identify and monitor target behaviors for the use of clonazepam.
2. Do not exceed the use of four (4) grams of acetaminophen per day from ALL sources, or as per facility policy.
3. Do not crush aspirin.
4. Diltiazem and lisinopril may cause orthostatic hypotension. Advise the patient to arise slowly from a sitting or lying position to reduce the possibility of falling.
5. Please chart a blood pressure and pulse rate weekly (or as per facility policy) with the administration of diltiazem.
6. Monitor for central nervous system depression and extra pyramidal symptoms while administering risperidone. Identify and monitor target behaviors for the use of risperidone.

Physician Recommendations:

1. The use of risperidone is associated with an increase risk of mortality in elderly patients treated for dementia-related psychosis. These medications contain a Black Box Warning to highlight this risk. Please document the risk vs. benefit of this potentially inappropriate medication.
